Dear Trevor

Key Solar is endeavouring to update our website with honest testimonials from customers. We would appreciate it if you could take a minute to write a few words about your experience with Key Solar.

I am so happy that I found Key Solar. I had done my research for one month before I found Key Solar and I had already decided on another company to do my solar installation, but changed my mind at the very last moment after talking to Jeff, and I'm so pleased that I did. By all means do your research, but just think about talking to Jeff before you commit anywhere else.

I'd like to THANK Jeff and his team for a very Professional installation at my home, as nothing was too much trouble for them, and they were very meticulous and courteous. The quality of their work was some of the best I've seen and me myself being a tradesman i can notice the finer details of professionalism.

I particularly like the panels that Jeff recommended, as they are performing much higher than any of the others that I researched, plus a 25 year warranty. I went for the SMA German inverter, which is meant to be the best and also a very good Warranty. What really impressed me was the Great price Jeff gave me way below any of the other companies and Quality to boot.

I ended up with a top quality system at a fantastic price, thank you Jeff and the team for a job well done.

Trevor Krause
